Artemesia Publishing, LLC

Artemesia Publishing was founded in 2004 with the vision of publishing unique and interesting books. We realized there were authors waiting to tell their stories who might be overlooked by the larger publishers. We are a micro-publisher based out of Albuquerque, New Mexico that works in partnership with authors to publish their work. By printing as few as two titles a year we have been able to focus on quality over quantity and this has led to numerous awards for our titles.

Our first titles were non-fiction, focusing on inspirational and real-life events. Our first fiction titles were for young readers and soon we had three MG series being published. This focus on MG allowed us to create our first imprint, Kinkajou Press, in 2009, which publishes early reader, mid-grade, and MG fiction.

A mix of non-fiction and fiction titles continue to be published under the main Artemesia banner. This includes books on art/architecture, science education that is also entertaining, romance, historical fiction, and mystery.

In 2013 Artemesia continued to grow its brand with the creation of our second imprint, Shadow Dragon Press. Shadow Dragon focuses on horror, supernatural, science fiction, and fantasy titles that will push these genres into new directions.

All of our titles are distributed by Independent Publishers Group (IPG) allowing us to have a national and international reach. With over 60 titles in print, and counting, Artemesia Publishing and our imprints will continue seek out authors with compelling stories to tell and to bring exciting titles to print that will educate, inform, and entertain our readers.

In *Belle's Trial*, Belle enjoys breaking the rules but must learn about the importance of discipline and overcoming fear. Finally, Belle must handle the challenges of moving, jealousy, and attacks on her reputation while training and applying new skills as a therapy dog in *Belle's Challenge*. Flora is an ordinary packrat. She's never flown through the air. She avoids strangers, especially singing porcupines and rude rabbits. She's never met a king of the kangaroo rats, and she would never talk with an owl—because everyone knows owls can't talk. Besides, they eat packrats.

Flora's predictable life is all about snuggling in her treasure-packed nest and "snibbling" snacks with her packrat pal.

Life is perfect—except for the dreaded cliff. "Beware!" warn other packrats, and Flora's stomach twists into knots.

All this is about to change when Flora learns about the ancestral packrat home, stuffed in a dark crack in the cliff, where countless packrats have raised their young. But a killer lurks there, driving packrats away.

The story haunts Flora, even as she tumbles into a faraway canyon where her life turns topsy-turvy.

Quirky critters, scary predators, and daring adventures impact her search for home, leading to surprising discoveries. And she learns she's not such an ordinary packrat after all.

Kirkus Review:

“In this marriage of fantasy and procedural thriller, the team of Habiger and Kissee...gives fans of both genres a master class in world-building... the charming, flawed protagonists prove themselves a winning combo worth visiting again. This rich fusion of crime and fantasy should enchant readers.”

A brutal murder, the victim's body cut in half, thrusts Constable Inspector Reva Lunaria into a dangerous investigation. This would be challenging enough without unwanted 'assistance' from the King's secret police, and a new partner who is clearly not up to Reva's standards. Reva's investigation takes unexpected turns as wild conspiracies, hidden addictions, and Dark Elf infiltrators all threaten to distract Reva from tracking down the killer stalking the city's streets.

Kale is popular for healthy living, appearing on restaurant menus, in grocery stores and in beauty products. It's in salads, on pizzas, and in soups. "Eat me. I'm good for you," it shouts, but for some, the vitamins and fiber cannot outweigh the bitterness and texture of this cabbage family member.

Kale is a Four-Letter Word presents kale in a new light. It has stories about those who introduce kale to their spouses and the reaction of those so targeted; horror stories about kale; a speculative history of kale; a murder mystery where kale plays an unusual role; and a fantasy about kale's rivalry with cauliflower.

The book also contains recipes. A word of caution, though. One was written by someone with a novel approach to cooking kale.

REVIEWS:

"Kale is a Four-Letter Word is unexpectedly witty, with some fun recipes to try out (or not) included at the end. Get ready to leaf your stressful day behind with this silly, albeit engaging, book." - San Francisco Book Review

The 9/11/2001 terrorist attacks seared themselves into America's collective memory. Whether someone lived near one of the target sites or thousands of miles away, they were affected, though differently.

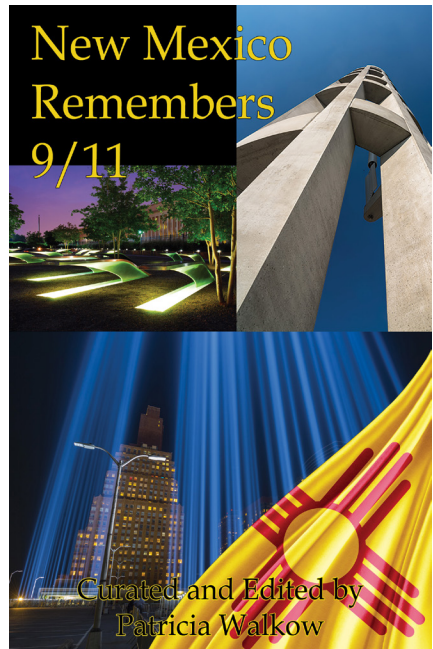

This anthology captures the September 11th experiences of New Mexico writers. Some witnessed the event. Some were still in school, or out of the country. All of them now live in The Land of Enchantment, the state snuggled between Texas and Arizona.

The talented contributors to New Mexico Remembers 9/11 offer enlightening, sometimes heart-wrenching prose, thoughtful analysis, and evocative poetry. What did they see? Do? How have they coped? What did they tell their children? How did they get home? Who got angry? Who retreated into themselves?

As we approach the twentieth anniversary of the attacks, readers of these stories and poems will understand New Mexico may have been physically far from the devastation, but its heart was just next door.

RAINBOWS FROM HEAVEN

Families are made in heaven.

The lives of three young girls in the Ukraine, and of two hopeful parents from Albuquerque, New Mexico, intersect in this heart-warming true story.

In the late 90's, three young girls were growing up in a harsh life in Ukraine. They begged in the street, and their mother was drunk and absent most of the time. A vicious dog attack on one of the girls forced the state to intervene and place the girls in an orphanage. They were safe, but taken away from the only family they had ever known, with little chance of a good life.

Halfway around the world Lynn Ellen Doxon and Robert Habiger began a journey on a church mission trip to Ukraine. They had learned of the orphanage from friends and had decided to set out to adopt one unwanted child. Little did they know how that trip would change their lives, and the lives of the three girls.

Lynn shares the humor, joy, fear and anger she experiences in the process of adopting her daughters. She opens herself up, showing that while she and Robert did not do everything right, continued trust in each other, prayer, and belief in their love for the girls would see Lynn's dream of a family come true.

DINOSAURS BEHAVING BADLY**2022 New Title****“Dinosaurs so fierce they’ll eat your crayons!”**

It’s easy to think about dinosaurs as fantastical, other-worldly beasts, “real” only as glorified monsters in summer sci-fi blockbusters and our imaginations. It’s quite another to think of them as living, breathing animals every bit as real as hawks and house pets. Animals that lived complex lives filled with intricate behaviors that allowed them to interact with each other and their surroundings, just as all animals do today-including us! As scientists, that’s how we spend our days-trying to read the clues left behind by the fossilized bones to figure out just how they lived their lives.

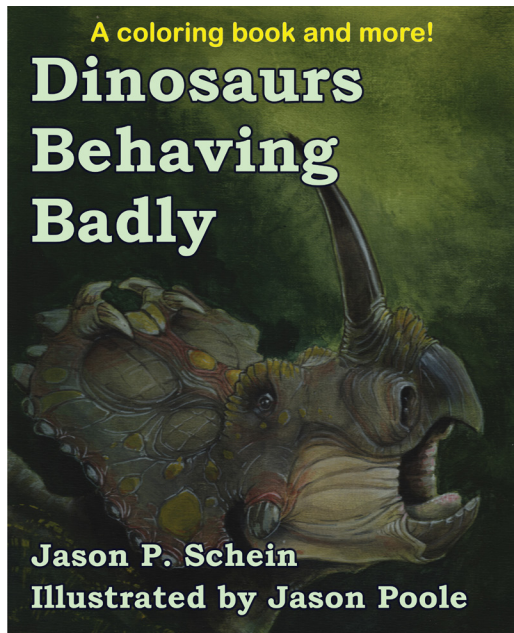

There is only so much that the bones can tell us, though, so we look to the modern natural world to help us fill in the gaps. And this is where our imaginations become an important part of the process! Dinosaurs Behaving Badly will provide plenty of both! We’ll tell you about the latest research on dinosaur behavior, but let you interpret the details in your own way. Use every ounce of your creativity and imagination to bring the ancient world back to life and see what you just might learn in the process!
